

## Summer 2014 Course Offerings

Registration for ASD iSchool Summer 2014 is done through your school counselor. Registration forms and payment receipt or Fee Waiver can be submitted to your counselor before the school year ends on May 22nd.

Registrations will be accepted for **original course attempts** on a first-come, first-served basis. Students seeking credit recovery options will need counselor approval. Once a class becomes full, registrations for that class will no longer be accepted. Classes are subject to consolidation or cancellation due to low enrollment.

Courses are \$100 per enrollment. Payment can be made either online in *ParentConnect*, or in-person with your school's Financial Clerk. To submit a payment for an ASD iSchool class in *ParentConnect*, you must look at the options under your home school. The [Fee Waiver form](#) can be used for those meeting the federal income guidelines.

**Students will be limited to TWO online classes during Summer session.** This would include the Cooperative Work Experience class for students in grades 10-12.

ASD iSchool classes will start June 9th and will end July 18th, for a total of 6 weeks. Courses contain pacing guides which students are expected to follow to keep on track to complete the course by July 18th. Summer pacing is triple-paced, so dedicated time to work on your class is expected daily. **Students should plan to spend 10-15 hours per week in each course.**

Seniors completing all requirements for graduation during our summer term will be considered for Fall 2014 graduation.
